<b>Total Hours</b>		<b>39-45</b>

1

At or above the CHEM 215 level

2

At least three of the six courses must be four hour courses. BIOL 494 or BIOL 498 may substitute for one of these 4 hour courses.

3

Electives can also be used to meet this requirement.

4

We encourage all students to consider BIOL 350 as one of the three additional electives.

5

Must successfully complete BIOL 499 in the senior year.

All courses counted towards the major must be completed with a minimum grade of C-, and BIOL 121 and BIOL 123 must be passed with at least a C- as a prerequisite for many biology courses numbered 200 and above. Students double-majoring in biology, particularly those with their second major in cognate disciplines, such as math, physics, chemistry, and psychology, must still complete the biology capstone.

## Requirements for a Teaching Endorsement in Biology

The program requirements of a student planning to minor in education for the purpose of certification in Biology vary slightly from those of other Biology majors. All students must complete the requirements for a major in Biology as listed above. While completing the major, education students must include the following courses, as well as ENGL 185 and the Education minor (<https://rmc.courseleaf.com/programs/education/education-minor-secondary/>). Not all courses required for certification will apply to the Biology major.
