or EVST 457	Internship in Environmental Study (Paid) \$200 fee	
<b>Area of Expertise</b>		
Select at least 15 upper-level credit hours from one discipline		15
<b>Total Hours</b>		<b>43-45</b>

1

It is recommended that all these courses be completed before taking EVST 305 Environmental Problem Solving II.

2

EVST 450 Field Studies in Environmental Studies for GPA <2.25

### The Area of Expertise

- At least 15 credit hours;
- All credits must be in one specific discipline (for example, BIOL or SOCI or COMM or GEOL, etc.);
- All credits must be in upper-level courses, that is, beyond the introductory course(s) for the discipline (consult the director of the environmental studies program for information about what courses in a discipline can count towards the area of expertise);
- Students are encouraged to pursue a minor or second major in their area of expertise.
